

# GLWA-HUW RESEARCH SYMPOSIUM 11/15/22

## TOPICS INCLUDE:

- ✓ Microplastics
- ✓ Tracking Transients
- ✓ Building a Pilot Plant
- ✓ PFAS & Biosolids
- ✓ Optimized Decision-Making
- ✓ Dissolved Oxygen Control Automation
- ✓ Data Driven Biological Phosphorous Removal

## NOV 15, 2022, 12PM - 2PM, VIA ZOOM

Join the Great Lakes Water Authority and Wayne State University's Healthy Urban Waters program for a fast-paced and engaging review of current water and wastewater research, delivered in lively 5-minute presentations.

On Tuesday, 11/15, academics, water sector professionals and GLWA team members will showcase the latest projects funded and/or supported by GLWA.

Bring your ideas to improve drinking water and wastewater management in Southeast Michigan. We'd love to see you there!
